CHINA doesn't adopt the American trial system because if she did the chances are that all her juries would be "hung."

Now the Chinese boxers have turned their attention to putting forth poetry. Such an outlandish weapon is surely barred by the rules of civilized warfare.

We want to warn Mr. Root in all friendliness that the country will not be disposed to condone an embalmed beef and transport a scandal in China like that in Cuba.

The powers may have to abandon their belief that the only things they have to do in China is to prevent the other fellow from grabbing too much, and may learn that "there is glory enough to go around" and to spare."

It will probably cost William Waldorf Astor a good many millions to get back into society again after his bad break and perhaps he will never get back. Americans hate todies and English don't love them.

Why isn't Neeley tried in the United States if it is not practicable to send him back to Havana? It is because Rathbone would have to be called as a witness, and once here, might "pull down the columns of the Republican structure," as he threatened to do some weeks ago.

The imperialism issue seems to have caught the public. Former Republicans continue to tumble over each other to get into the Democratic camp, undeterred by any fear of silver. Representative Richardson seems to have been right when he said, paradoxically, that the silver plank had been inserted in order to lessen its importance in the campaign.

It is said that Macon has the stingiest woman on record. She talks through her nose to save the wear and tear on her false teeth.

If a woman made the same face when she kisses as she does when she tries to whistle there would be more bachelors than there are.

The women that fall in love with a man and are too proud and modest to let him know it would be too foolish to live anywhere outside of books.

A Connecticut man had sued his wife for divorce because she pulls his whiskers. The idea of wrecking a life of marital happiness for want of a 10-cent shave!

The house fly is certainly in its glory at present. They are more numerous at present than at any other time of the year. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 65. Hall's Family Pills are the best.

Gus Munch, who was one of the Philadelphia enumerators is in the toils of the "thirteen" superstition. He was sworn in as census enumerator May 13, and finished his work June 13. His list included just 1313 names, and there were 13 dead persons in as many houses when he called. This combination of circumstances has preyed upon his mind until he admits having lost 13 pounds since he began work as an enumerator. Some one asked him the other day if he wasn't afraid he would die inside of a year. "No I'm not afraid of that," replied he. "What worries me is that I may only get \$13 for my work.—Ex.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes and he suffered terribly. His malady was yellow jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50 cents. Sold by W. C. Gaston, druggist.

When a man owes \$2.30 and doesn't pay it at the end of a week he never pays his debts; if \$2.30 runs five weeks "he's a dead beat;" if he has divers hundreds of unsettled accounts on the yearly clean-up of the tradesmen's books "he is temporarily embarrassed;" if he gets his relatives and friends to indorse his paper and leaves them to settle "he is in financial difficulties;" if he steals right and left and enough lawfully, he may be accused of "hypothecating his collateral;" if he wrecks a few friends, and better, a few public institutions, where the amount runs into six figures, "he is an unfortunate financier, with, however, a great future before him."

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio.
